- **Weight:** 2.15 kg
- **Weight incl. Packaging:** 2.73 kg

Product highlights

MP3-CD playback

MP3 stands for "MPEG 1 Audio layer-3". MP3 is a revolutionary compression technology by which large digital music files can be made up to 10 times smaller without radically degrading their audio quality. MP3 has become the standard audio compression format used on the world wide web, allowing quick and easy audio file transfer.

FM/MW stereo tuner

Line-in connection for MP3

MP3 line-in connectivity allows direct playback of MP3 content via your audio system. By simply connecting your portable MP3 player to the audio system via its built-in line-in jack, you can enjoy superb sound quality while playing your favorite music from your portable MP3 player.

20-track CD programmable

The CD programmable playback feature allows you to enjoy your favorite tracks in the sequence you want.

CD-R/RW Compatible

CD-Rewritable Compatible means that your audio set can play both CD-Recordable (CD-R) and CD-Rewritable (CD-RW) discs. CD-R discs are recordable once and can be played on any audio CD player while CD-RW discs can be recorded and rewritten multiple times and can only be played back on compatible audio CD players. The laser pick-up and CD decoder circuitry of CD-RW compatible players are specially designed to read the special audio CD-RW phase-change recording layer, ensuring you can always play your home-recorded discs on your audio CD system.

Multi-functional LCD display
